

HANDS OFF MY NHPS!

Health Canada is Proposing Natural Health Product Regulatory Changes That Will:

- Limit your access to supplements
- Increase the price of remaining supplements
- Restrict traditional medicines and homeopathy
- Hurt clean, innovative Canadian businesses

REQUIRED

Dear _____,
(Name of Your Member of Parliament)

I strongly object to the implementation of Health Canada's proposed Natural Health Product (NHP) regulations. Current regulations, properly administered, provide an optimal balance of consumer freedom of choice and consumer safety. **Considering that zero (0) Canadians have died from the directed use of a NHP, there is no justifiable reason to change current regulations.**

Proposed regulations will create hardship for innovative small and medium-sized companies due to claims restrictions, licencing fees, and labeling changes. Proposed regulations do not respect traditional health practices of a multi-cultural Canada. *Proposed regulations will reduce consumer choice and increase consumer cost.* Proposed regulations will strangle the NHP sector – a clean, healthy industry that should be encouraged by the Canadian government.

For the stated reasons, I ask that you stop the implementation of proposed Health Canada Natural Health Product regulations.
